

ANKITA PAWADIA

Data Entry • Data Quality • Excel • Research Support • Reporting

pawadiaankita@gmail.com | +91-7988840373 | India | linkedin.com/in/ankita-pawadia

PROFILE

Detail-oriented data and business analyst with close to a year of experience organizing information, reviewing datasets, maintaining structured workflows, and preparing accurate reporting. Comfortable working independently, following defined processes, and coordinating with stakeholders.

Why I fit data-entry work

- Strong attention to detail and accuracy when organizing and reviewing information.
- Hands-on experience with Excel, Power BI, SQL, Python/Pandas, Word, PowerPoint, and structured documentation.
- Experienced in checking information for gaps, inconsistencies, and process deviations.
- Used to working with deadlines, SLAs, cross-functional teams, and clearly defined procedures.
- Able to learn new online systems and follow formatting/instruction requirements carefully.

Relevant experience

Junior Engineer – Sales & Business Analysis Wellcare Oil Tools Pvt. Ltd. Apr 2026 – Jun 2026	Coordinated and organized client regulatory, quality, and technical requirements. Built and maintained a 150+ clause contract-review workflow in Excel VBA and followed structured procedures to resolve process deviations within 24-hour SLAs.
Business Analyst Turing Jan 2026 – Mar 2026	Researched and analyzed business datasets, summarized findings for stakeholders, designed Power BI dashboards, and streamlined reporting workflows, reducing reporting turnaround time by 93%.
Business Development Associate Tripple One Solutions Jul 2025 – Nov 2025	Investigated a conversion-rate discrepancy through structured research and redesigned the lead-qualification process to address the identified gap.
Research Intern ONGC – Institute of Reservoir Studies May 2024 – Jun 2024	Documented and organized technical findings from EOR experiments and standardized lab setup/calibration procedures to improve consistency.

150+	93%	20%	0
clauses in Excel VBA workflow	reporting turnaround reduction	process-error reduction	compliance audit findings

DATA ENTRY & QUALITY PORTFOLIO

A practical snapshot of the way I approach structured data work.

Core tools

Spreadsheets	Advanced Excel, Excel VBA
Data & analysis	SQL, MySQL Workbench, Python, NumPy, Pandas
Reporting	Power BI, Microsoft PowerPoint, Microsoft Word
Productivity	Microsoft Office Suite, ChatGPT, Microsoft Copilot
Work practices	Documentation, prioritization, SLA-driven delivery, cross-functional coordination

My data-entry quality workflow

1	Understand	Read the task instructions, required fields, naming rules, and formatting requirements before entering data.
2	Enter	Input information consistently into the required spreadsheet, form, or online system.
3	Validate	Check completeness, spelling/formatting, duplicates, missing fields, and obvious inconsistencies.
4	Review	Perform a second-pass review against the source information and task instructions.
5	Deliver	Keep files organized, communicate questions early, and complete the assigned work within the agreed deadline.

Demonstration: data-quality checklist

Sample task: Enter a list of records into a spreadsheet and prepare it for client review. The following is a demonstration of my checking method; it does not contain client-confidential information.

Record	Required fields	Duplicate check	Format check	Status
Sample A	Complete	Clear	Pass	Ready
Sample B	Complete	Clear	Pass	Ready
Sample C	Missing 1 field	Clear	Review	Hold
Sample D	Complete	Possible duplicate	Pass	Review

Education & certifications

B.Tech, Applied Petroleum Engineering — University of Petroleum and Energy Studies (UPES), 2021–2025 • Additional Diploma in Cybersecurity

Certifications: AI in Data Analytics & AI Professional Certificate (Google, via Udemy) • Data Fundamentals (IBM SkillsBuild) • Introduction to Data for Decision Makers (BCG X, via Forage) • Technology Consulting (Accenture, via Forage)

CONTACT

For data entry, data cleaning, spreadsheet updating, research support, and structured administrative data tasks.
